DETAILED ACTION

Please note that this action is not final due to a new ground of rejection. The examiner regrets any inconvenience.

Reissue Applications

Claims 1-21 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.* 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) related subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

The limitations omitted in the reissue are “an annular shape with”, “radial direction of”, and “and perpendicular to the radial direction”. These provides broadening aspect to the reissue claims that was clearly argued in the original application amendment filed on May 17, 1996 to overcome the rejection based on *Bombardier et al.*’021 in view of JP’870, *Beasley*’963, *Ruark et*

al.'681, and Holzhauer filed on February 26, 1996. Thus, the omitted limitation relates to subject matter previously surrendered, in the original application.
